

## Please **MARK** your calendar

**Tuesday, June 18, 2019**  
**7:00 pm to 9:00 pm**

### **Finkelstein Memorial Library**

24 Chestnut Street  
Spring Valley, NY 10977

## Please **RSVP**

Please RSVP and  
let us know if you are coming!

### **RSVPs are not required**

but we do ask attendees to  
RSVP if possible, so we can  
have enough facilitators  
on-hand to address your  
comments and concerns.

To RSVP you can email us at  
[RSVP@Route59Study.org](mailto:RSVP@Route59Study.org)  
or leave us a message at  
[www.Route59Study.org](http://www.Route59Study.org).

## Community Planning Workshop #3

Please join us at the third in a series of four community planning workshops to help plan the future of Route 59 in Airmont, Ramapo, Monsey, and Spring Valley.

The New York Metropolitan Transportation Council (NYMTC) needs your help to envision changes and improvements in the Route 59 transportation corridor. Community Planning Workshop #3 will focus on key areas and issues identified by the community during previous workshops and brainstorm ideas that will form potential recommendations to the Route 59 Study. We welcome and value your participation as we sharpen our focus on how land use, streetscape, and transportation precedents can improve community lifestyle and experience within the Route 59 corridor.

A total of four community planning workshops are being held throughout the study area. Each workshop builds upon your input to help refine ideas that you think will improve the corridor. In addition, "pop-up" events are being held at various community gatherings and meetings in the study area. Please visit the project website [www.Route59Study.org](http://www.Route59Study.org) for study announcements, meeting updates, or to submit your ideas or comments on how to improve Route 59.

*We hope to see you there!*

## About the Study

The area surrounding Route 59 includes a mix of land uses, with large retail centers as well as commercial and residential sites and a significant pedestrian presence. The travel markets that move within and through the area are complex, being a mixture of regional and local person and goods movement and modes including truck, bus, car, pedestrian and bicycle. The Route 59 Area Transportation & Land Use Study will identify and evaluate transportation and development issues and future scenarios in the Route 59 corridor. You can learn more about the Route 59 Area Transportation & Land Use Study\* by visiting [www.Route59Study.org](http://www.Route59Study.org).

## Your Voice Counts

**NYMTC is inviting those who use Route 59, those who live in and around the corridor, property and business owners, community groups, elected officials, and other public representatives to help develop the future vision of Route 59 and its communities.**

The New York Metropolitan Transportation Council complies with the Americans with Disabilities Act and federal Limited English Proficiency guidelines. If you need accommodation to participate in this meeting, or translation services into Spanish, French-Creole, Yiddish, or American Sign Language, please contact [Andrea.Miles-Cole@dot.ny.gov](mailto:Andrea.Miles-Cole@dot.ny.gov) NO LATER THAN 72 HOURS PRIOR TO THE MEETING.

*\*This planning process is being led by NYMTC and is not part of the Town of Ramapo Comprehensive Plan update activities occurring simultaneously.*
